

Macedonia (FYROM) 1:260,000 Road Map & Skopje 1:15,000 Street Plan DOMINO

Macedonia 1:260,000 Road Map & Skopje 1:15,000 Street Plan DOMINO This double sided map features a road map of Macedonia (Former Yugoslav Republic of Macedonia) at 1:260,000 on one side plus a street plan of all of Skopje at 1:15,000 on reverse. Both maps have legends in Macedonian (i. e. in Cyrillic) and English. All geographic and place / street names are latinized. The road map offers excellent presentation of the countrys topography through light relief shading, peak heights and plenty of names of mountain ranges. Road network includes local roads and tracks, shows driving distances on main and many secondary routes, and indicates border crossings from the neighbouring countries. Railway lines and local airports are included. Latitude and longitude lines are drawn at intervals of 30. The street plan of Skopje covers the whole city. Symbols indicate parking lots, gas stations, churches, theatres, post offices, etc. The street name index is next to the map.
