

Intellectual Property - PAST & FUTURE- A compilation of articles in Spanish and English by Luis C. Schmidt

Luis C. Schmidt is one of the greatest lawyers in Mexico, specialist indifferent subjects of Intellectual Property. During his life he has developed an unthinkable amount of knowledge that through his articles is shared. The articles listed in this compilation are not only the result of years of continuous learning, but they are the gathering of years of practice. For students, this compilation is a clear evidence of how Intellectual Property has developed through the time and therefore, a clue to find out what can the industry expect in the following years. The leap that must be taken from the books and theory to the actual practice is likely to be difficult for students that have been taught with classical theories that have now been left behind because of technological and globalization needs envisaged by the Intellectual Property system. As a young attorney this could be one of the greatest compilations ever, because through its pages there is an uncountable knowledge, which will help as an introduction as well as a path to follow. Consider this compilation as a gift of knowledge from one of the greatest minds in Intellectual Property in Mexico, and use it to enlarge your panorama regarding issues in the industry, even before they are there. This concept grounds the raising of this compilation in an electronic format that will enhance the searches of information. Likewise, will let the users carry and use it as soon as required, anytime, anywhere.
