

Courageous (Mills & Boon M&B)

A Man of Action The life of a paid mercenary makes sense to Special Forces Officer Winslow Grange. The jungles of South America are nothing that the former Green Beret cant handle. A womans heart, however thats dangerous territory. Back in Texas, Granges biggest problem was avoiding Peg Larson and all the complications of being attracted to a live-in employee. Now Grange needs all his training to help regain control of a tiny South American nation and, when Peg arrives unannounced, shes a distraction he cant avoid. If she breaks through his armour, traversing the wilds of the Amazon will be easier than defending himself against her feminine charms
