

The 2013 Import and Export Market for Merry-Go-Rounds, Swings, Shooting Galleries, Fairground Amusements, Traveling Circuses, Traveling Menageries, and Traveling Theatres in Ukraine

On the demand side, exporters and strategic planners focusing on merry-go-rounds, swings, shooting galleries, fairground amusements, traveling circuses, traveling menageries, and traveling theatres in Ukraine face a number of questions. Which countries are supplying merry-go-rounds, swings, shooting galleries, fairground amusements, traveling circuses, traveling menageries, and traveling theatres to Ukraine? How important is Ukraine compared to others in terms of the entire global and regional market? How much do the imports of merry-go-rounds, swings, shooting galleries, fairground amusements, traveling circuses, traveling menageries, and traveling theatres vary from one country of origin to another in Ukraine? On the supply side, Ukraine also exports merry-go-rounds, swings, shooting galleries, fairground amusements, traveling circuses, traveling menageries, and traveling theatres. Which countries receive the most exports from Ukraine? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for merry-go-rounds, swings, shooting galleries, fairground amusements, traveling circuses, traveling menageries, and traveling theatres in Ukraine. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for merry-go-rounds, swings, shooting galleries, fairground amusements, traveling circuses, traveling menageries, and traveling theatres for those countries

serving Ukraine via exports, or supplying from Ukraine via imports. It does so for the current year based on a variety of key historical indicators and
